## Rainbow Window Art

Let's spread a little cheer around Vergennes by hanging up a picture of a rainbow in the window of your house. The trend was started by children in Spain and Italy. This is a simple way to spread hope to your neighbors. It also communicates to kids that everything will be okay.

**Activity:** When you take your kids for a walk, have them count all the rainbows they find along the way!

## Help LIGHT UP Vermont

Let's join the "Help Vermont LIGHT UP the World" Movement!

The holidays always bring cheer in our lives so why not bring it back to create some positivity in our community. Let's dig out those Christmas lights and join the residents of Booska Court by lighting up your lawn/house to say THANK YOU to the essential persons!
